

Bates X-Long Bags

For multiple meter applications
- up to 11 meter

Prevent cargo damage

With 40 years experience we know how to protect your goods in trucks, containers, ships and rail wagons.

Reliable performance

Strong polywoven and PE materials. Maintains pressure for a long period. Available in standard, custom made sizes and with velcro loops. AAR Level 2 approved.

Time & cost saving

Quick and easy installation. One X-long airbag replaces several conventional airbags. One inflation point only. Reuseable.

Fast and simple inflation

Operator friendly inflation using compressed air or Portable battery inflator. Unique valve system. Closes automatically after inflation.

Bates X-long Bags

Safeguarding and securing cargo is essential to ensure customers receive their products in perfect order. It is essential to avoid costly transport damages in an easy, fast, economical and environmentally friendly way. Bates X-Long Bags are the optimal solution to secure product between the walls of the vehicle and the products. AAR Level 2 approved.

Benefits and features

- Long coverage, less cost**
 Bates X-Long Bags can be tailor-made in various lengths. The perfect solution in applications where time and money can be saved in loading and unloading products.
- Simplifies loading operation**
 Easy to position, Bates X-Long Bags can be fixed with magnetic or velcro hooks in order to stabilize cargo in containers or trucks. Easy and fast to install and inflate, especially effective in narrow voids.
- Reusable and recyclable**
 Bates X-Long Bags are reusable thanks to the deflation cap on the valve. The air can be released quickly for unloading and is then ready to reuse.

Optional equipment

- Bates Striker Valve Technology with Venturi assisted inflation.
- Digital inflator technology. Digital gauge allows for accurate working pressure of the airbag, ensuring operator safety and correct securing of the load.
- New Auto Shut-off filling tool. Preset the air pressure and inflation stops automatically.

Inflation by portable systems

Airbags installed, ready to inflate

Digital inflator

Easy access to valve for inflation

Certified Manufacturing Plant

ISO 9001 Quality Management System
